ELAINE SMITH, SECRETARY
KATHY STOCKSTILL, SECRETARY

Dear Friend of the Bicentennial in Montana,

The Montana Bicentennial Administration is pleased to present this first edition listing Bicentennial activities in the Treasure State. The roster of proposals in Montana will be updated on a quarterly basis.

The Bicentennial Administration staff is hopeful the publication of these projects and proposed events will prove of benefit to all the citizenry in making them aware of the wide variety of possibilities within the Bicentennial's three themes of Heritage '76, Horizons '76, and Festival '76.

Montanans have responded with enthusiasm to the challenge of the forthcoming observance of the Nation's 200th Birthday, with a wealth of proposed activities. What is most encouraging to the Montana Bicentennial Administration is that new proposals arrive each day from every part of the state.

It is our obligation to assist each county and town in every way possible toward making the commemoration of the United States' entrance into its Third Century of existence a genuine worthiness to the citizens of the Big Sky Country.

We are a people who can match our mountains in demonstrating how significant a role Montana has played in the development of our Nation.

Yours in the Spirit of '76,

Harold J. "Hal" Stearns.

Director, Montana Bicentennial Administration

INTRODUCTION

WHAT IS THE MONTANA BICENTENNNIAL REGISTER OF ACTIVITIES?

The Register is a comprehensive sourcebook of Bicentennial activity in the state from July 1, 1973 to December 31, 1974. It contains all the projects registered with the MBA during that period, as well as informative breakdowns of projects into necessary catagories.

For those counties who have developed additional activities since the first of the year, they will be included in the next official Register of Activities. Also, many counties have neglected to inform the MBA of their activities and are consequently represented as weak compared to others. This inadequate representation can only be altered by the submission of Bicentennial projects to the MBA in Helena.

WHAT ARE THE THREE THEMES OF THE BICENTENNIAL AND WHAT DO THEY MEAN?

HERITAGE: a summons to recall our heritage and to place it in its historical perspective. Everyone is urged to re-examine their origins, their values, and the meaning of America -- to take pride in our accomplishments as a people. Heritage is the preservation of our past.

FESTIVAL: an opportunity to program activities and events, to stimulate travel, and to encourage citizens to expand their knowledge of America. The theme allows us to celebrate the Bicentennial through festivals, etc.

HORIZONS: a challenge to every American to undertake at least one project which manifests the pride, priorities and hopes of his community. It is a chance to improve our quality of life. Horizons is our future.

HOW DO I USE THE REGISTER OF ACTIVITIES?

The Table of Contents will direct the reader to specific areas in the Register. Projects listed in the Register include information on:

1. Project title
2. Project theme
3. Project sponsor
4. Project timetable
5. Project description

The breakdowns on pages 2 and 7 will help the reader understand the overall development of the Bicentennial in Montana through 1974.
The * in front of Projects indicates whether or not the project has been put on the ARBA BINET (Bicentennial Information Network) system as of the printing date. Projects on the BINET system will be included in the National ARBA Register of Activities and will receive national publicity.

WHAT VALUE DOES THE REGISTER OF ACTIVITIES HAVE FOR THE MBA?

The Register will be sent to Montana Legislators, County Commissioners, County Bicentennial Organizations, Newspapers, Television and Radio Stations, Chambers of Commerce, State Agencies, the Governor, other States' Bicentennial Commissions, MBA Advisory Council, ARBA, and other interested parties.

The Register will serve to encourage communities to participate in the Bicentennial, and it will provide information to interested parties about Montana.

MONTANA BICENTENNIAL COMMUNITIES

The Bicentennial Communities program in Montana is a program where cities and/or counties in the state can receive a special designation and recognition for extroardinary efforts on behalf of the Bicentennial.

The Bicentennial Community designation for a city means that city has developed a thorough Bicentennial observance with many projects in each of the three thematic areas of Heritage, Festival, and Horizons. It means that the city has involved every club or organization in a project, and that it has developed at least one project of permanence, of significance.

Bicentennial Communities receive ARBA and MBA flags, a special Certificate of Recognition, national publicity, recognition by the Governor with a day named in their honor, special MBA consideration of projects requiring grant fund support, designation on travel and tourist guides and maps, a Bicentennial Community ceremony with federal ARBA officials in attendance, and, most of all, pride in themselves.

Applications for Bicentennial Community designation can be secured through the MBA, Box 1776, Capitol Station, Helena, Mt., 59601. Applications for Bicentennial Community designation will only be accepted by the MBA on or before May 31, 1975. The deadline was established by the MBA because it felt that an appropriate observance needed at least a year of preparation. Questions on the Bicentennial Community program should be directed to the MBA.

The following communities have alread received Bicentennial Community designation:

Sidney/Richland County
Billings/Yellowstone County
Fort Benton
Anaconda/Deer Lodge County

The following communities have applications into the National American Revolution Bicentennial Administration (ARBA), and are awaiting word on their official recognition. These applicants have already passed the Montana Bicentennial Administration successfully:

Bozeman/Gallatin County
Havre/Hill County
Great Falls/Cascade County
Glendive/Dawson County
Hardin/Big Horn County
Butte/Silver Bow County
Miles City/Custer County

Some other communities are presently preparing Bicentennial Community applications. Interested communities should contact the MBA soon to avoid missing the May 31 deadline.

MONTANA BICENTENNIAL ADMINISTRATION

WHAT IS THE MBA?

The Montana Bicentennial Administration (MBA) is the official Montana Bicentennial organization. The MBA is attached administratively to the Department of the State Board of Education. 56 county Bicentennial organizations have been developed by the MBA to localize and effect a proper commemoration of the Bicentennial of the American Revolution.
